Summary

Passionate and detail-oriented **Full Stack AI Developer** skilled in **MERN stack** (React, Node.js, Express, MongoDB). Proficient in **React, Tailwind CSS, JavaScript, Node.js, Express, MongoDB, Supabase**, with expertise in **AI integration, automation, prompt engineering**. Experienced in building scalable, user-centric web applications and delivering optimized code in agile teams.

Skills

- **Frontend:** HTML, CSS, JavaScript, jQuery, Bootstrap, Tailwind CSS, React, Responsive Design
- **Backend:** Node.js, Express, MongoDB, Supabase, Multer, WordPress, PHP, REST APIs
- **AI and Automation:** Prompt Engineering, Lovable.dev, cursor, n8n, ChatGPT-5, Claude Sonnet, Grok
- **Tools:** Git, GitHub, copilot, VS Code, Postman, thunder client, Cloudflare, Vercel

Experience

- **AI Full Stack Developer**
My Virtual Mate, Melbourne, Australia
Remote, 19/08/2025 - 20/11/2025
 - Developed AI-powered platforms as an **AI Full Stack Developer** using **React, Node.js, Supabase**, similar to Lovable.dev, for automation and user workflows.
 - Integrated and tested **REST APIs** for real-time performance and functionality.
 - Optimized applications with **Cloudflare** for global scalability and uptime.
 - Crafted **AI prompts** for automation workflows, improving accuracy with **ChatGPT-5, Claude Sonnet, Grok**.
 - Troubleshoot **LLMs** (ChatGPT-5, Claude Sonnet, Grok) for enhanced reliability.
- **Full Stack Developer Intern**
Ansh Infotech, India
Full-time, 03/2025 - 06/2025
 - Built full-stack web applications as a **Full Stack Developer** using **React, Node.js, MongoDB**, improving performance and user experience.
 - Debugged and enhanced UI responsiveness in an agile environment, improving UX by 15%.
 - Implemented **MongoDB** for scalable data management.
- **Web Development Intern**
Vidyainternhub, Remote
Full-time, 07/2023 - 09/2023
 - Developed responsive web applications as a **Web Developer** using **React, HTML, CSS, JavaScript**.
 - Delivered 3+ client-ready features, enhancing teamwork and efficiency.
 - Used **Tailwind CSS** for consistent, user-friendly designs.
- **Full Stack Developer Intern**
MakeIndias, India
Full-time, 01/2023 - 03/2023
 - Created full-stack applications as a **Full Stack Developer** using **React, Node.js, MongoDB**, improving UI speed by 20%.
 - Developed **RESTful APIs** with **Express** for efficient data exchange.
 - Optimized **MongoDB** indexing to reduce query times.

Projects

- **Resume-Scribe**
 - Built a hiring platform with **HR/Recruiter** and **Admin** roles using **React, Node.js, Supabase**.
 - Automated resume extraction, rate management, and hiring workflows with **REST APIs**.
 - Included meeting scheduling and candidate sharing modules.
 - Integrated **APIs** for cross-platform compatibility (Present MVM).
 - **Tech:** React.js, Node.js, Supabase, shadcn/ui, Multer, JWT Auth. Live Demo

- **MVM-Handbooks**
 - Created 15 company handbooks for client onboarding using **React, Node.js, Supabase**.
 - Integrated **Resend API** for mail delivery and built a **Support Ticket System**.
 - Enhanced client experience with issue reporting and automated email responses.
 - **Tech:** React.js, Node.js, Supabase, shadcn/ui, Resend API, Tailwind CSS.
 - **Links:** GitHub, Live Demo
- **MVM-Official**
 - Built multi-page website for **My Virtual Mate** using **React, Node.js, Supabase**, deployed on .com.au and .com.
 - Implemented country-based access for specific pages.
 - Integrated **Resume-Scribe API** for live candidate portfolios.
 - **Tech:** React.js, Node.js, Supabase, Tailwind CSS, Cloudflare, REST APIs.
 - **Links:** GitHub, .com.au, .com
- **AP Prokure – Enterprise Procurement Platform**
 - Developed AI-powered procurement system for auditing and ESG analytics using **React, REST APIs**.
 - Designed dashboards and automated audits with secure **API integrations**.
 - **Tech:** React, Tailwind CSS, REST APIs, Cloudflare.
 - **Links:** GitHub, Live Demo
- **Student Enquiry System**
 - Built **MERN** app with admin dashboard, **JWT authentication**, and real-time analytics.
 - Achieved 99.9% uptime with 100+ daily active users.
 - **Tech:** React, Node.js, Express, MongoDB, Tailwind CSS.
 - **Links:** GitHub, Live Demo

Certifications

- **Certified Web Developer Training**
IEM Labs, Kolkata, India
03/2022 - 11/2022
 - Completed training in **frontend and backend development**.
- **Front-end Web Developer**
TCR Innovation, Navi Mumbai, India
Online
 - Completed training in **frontend development** with project implementation.

Education

- **Bachelor of Computer Applications (BCA)**
Narula Institute of Technology, Kolkata, India
06/2021
- **Higher Secondary (12th)**
Bihar School Examination Board, India
06/2018
