PROFESSIONAL SUMMARY

Content creator and AI systems builder who founded and operates three live brands: ToolVerse (AI tools platform, 57 tools, live on Vercel), Aurelian Canvas (museum-grade 16K AI fine-art label) and Pipsio Kids (3D kids animation channel). I do not just make posts — I build self-running content engines: a Node.js pipeline on GitHub Actions has executed a 90-day publishing calendar across Instagram, Facebook, LinkedIn and Pinterest with prime-time geo-targeting to the US, UK, Canada, Australia, Germany and the Netherlands, duplicate-proof posting locks and honest failure alerts. Engineering discipline applied to content: on time, every time, measurable.
